Alex Carter

Backend & Python Developer

📧 alex.carter@email.com 📱 +1 (555) 019-2834 📍 San Francisco, CA 🌐 github.com/alexcarter-dev

PROFESSIONAL SUMMARY

Software Developer with **2.5 years of experience** specializing in Python backend services, asynchronous APIs using FastAPI, containerization, and RAG/LLM applications using LangChain and vector databases. Strong background in database design and automated cloud deployments.

TECHNICAL SKILLS

Languages:	Python, SQL (PostgreSQL), JavaScript, Bash
Frameworks:	FastAPI, Django, Flask, Pytest
AI & RAG Tools:	LangChain, ChromaDB, OpenAI API, LlamaIndex
DevOps & Cloud:	Docker, Git, GitHub Actions (CI/CD), AWS (EC2, S3, ECS), Redis

PROFESSIONAL EXPERIENCE

TechCorp Solutions — *Software Engineer* Jun 2023 – Present (1.5 Yrs)

- Architected and deployed high-throughput backend microservices using **FastAPI** and **Python**, handling 1.5M+ daily requests.
- Implemented **LangChain** retrieval chains with **ChromaDB** vector store to power internal document search and AI workflows.
- Optimized **PostgreSQL** relational schemas and integrated **Redis** cache, cutting API latency by 30%.
- Containerized microservices using **Docker** and established **GitHub Actions CI/CD** automated deployment to **AWS ECS**.

WebScale Systems — *Junior Developer* Jan 2022 – May 2023 (1 Yr)

- Developed RESTful API endpoints using Django and PostgreSQL backend servers.
- Wrote automated unit and integration test suites using Pytest, bringing code coverage up to 88%.
- Supported cloud infrastructure setup and basic container deployment tasks on AWS EC2.

EDUCATION & CERTIFICATIONS

B.S. in Computer Science — State University Graduated 2021
